

# Krebs Architecture & Engineering, Inc. Company Profile

October 2011

## The Krebs Story

Our story began in 1926. From our beginnings as a small two man engineering firm in downtown Birmingham, Alabama, we have expanded to provide architecture, engineering, and surveying services throughout the Southeast. We have operated through the years with overlapping continuity of principals and employees which has enhanced our ability to be responsive to our clients. Many of our client relationships span more than 50 years and we continue to operate and manage the firm to maintain these relationships while working hard to develop new opportunities for the firm.

## Krebs Mission

To provide quality, practical, and sustainable solutions to our clients' problems through technical expertise, personal integrity, and timely communication.

## Practice Areas

We provide services in the following practice areas: Programming, Planning and Permitting, Design, Construction Administration and Review, Studies and Evaluations, and Facility Assessments.

## Krebs Philosophy

Our workplace is committed to quality through design, excellent client service, efficient production, and strong project management with an eye towards the value of time. We value the talents and initiative of our staff and associates and encourage a balance among work, family, and community. We acknowledge the demands of our clients for assessing and envisioning their program in a timely fashion and translating these needs into a sustainable solution that can be built within their budget and schedule. We are committed to operating our company in a responsible, ethical, and sustainable manner. Our conduct earns the respect and trust of our clients, employees, partners, and peers.

**ETHICS:** Our core values are based upon a high level of personal and professional ethics. Our relationships are based upon trust. We continuously strive to treat everyone with respect, to perform our service with integrity, and to accept responsibility for our actions.

**COMMUNITY INVOLVEMENT:** We believe in being actively involved in the community and we encourage leadership and participation not only in the communities where we are located but also in our clients' communities. Since we are planning and designing facilities for communities, we believe it is important to be involved in those communities.

**SUSTAINABILITY:** We share our client's concern for the environment. Our commitment to sustainable design is exhibited by our LEED accredited professionals and our LEED certified designs. Krebs is a leader in the design of sustainable facilities.
